Dear ,

RE: Questions about Godfrey & Wing Impregnation Sealants

We can certify that none of the Godfrey & Wing Sealants or associated chemicals contain any added lead, cadmium, mercury, hexavalent chromium, polybiphenyls (PBB) or polybrominated diphenyl ethers (PBDE) and to the best of our knowledge none of the raw materials used in their manufacture could contain these compounds

Yours Sincerely,

Dr. David J Dunn
Director Research and Development

.
